

## Distinctive mark: 100% Made in Italy

**Puntoenergia Italia Srl** introduces a new line of cabinets produced in Italy, which maintains an aggressive price but, at the same time, it is treated in every detail, to satisfy even the most demanding installers. Workability and cost-effectiveness: equipped with two pairs of rails (front and rear) and removable side panels with key lock for fast and safe installation of rack accessories.

**Quick assembly:** pre-assembled easy to install thanks to the door with an opening greater than 210 °; the holes on the back allow quick wall mounting.

**Safety:** front tempered glass door with key lock; side panels equipped with a key lock.

**Versatility:** two pairs of 1.5mm 19" rails, removable blind side panels with ventilation slots; fixed blind rear panel with holes for wall mounting, reversible and removable tempered glass door complete with key lock. Two 120mm ventilation fans can be installed on the top. Cable entry facilities both on top and on bottom. Grounding kit included in the supply.

**Accessories:** a wide range of accessories to meet the needs of designers and installers.

## FEATURES:

- Single section wall cabinet with sturdy painted steel structure
- Tempered safety glass door or vented/blind metal door, easily removable and reversible, opening angle greater than 210°, locking with key
